BIG QUERY PRACTICAL EXERCISE

Question 7

```sql
---Q7 Conditional Aggregation
----For each Gender, count how many high-value transactions occurred (where Total Amount > 500).
SELECT
  t.Gender,
  COUNT(CASE WHEN t.`Total Amount` > 500 THEN t.`Transaction ID` ELSE NULL END)
    AS high_value_transaction_count
FROM `big-query-practical-493419`.`practical_retailsales`.`Data` AS t
GROUP BY t.Gender;
```
